

Modul-System racking proposals for **Volkswagen**

Caddy Cargo, Transporter,
Crafter & ID. Buzz Cargo

Modul-System

As a customer of Modul-System, you can feel confident that you have made a wise choice. We have more than 40 years of experience in the industry, and have been working with our safety program for many years. Today, we use some of the most highly reputed safety centers in the world to carry out crash testing, including the Volvo Cars Safety Centre. However, experience alone is not enough. Our ability to be forward-thinking along with taking the time to understand each of our customer's requirements is equally important. For every one of our development projects, we conduct forums with customers and end-users alike, which enables us to create innovative, new products.

Quality-assured down to the last detail

Our products comply with the European TÜV standard. Through ISO 9001 certification, we can ensure quality at every stage from development and manufacturing through to sales, customer service and delivery. This enables us to offer a 36-month warranty on all of the products that we manufacture ourselves. In addition, we can also provide the fastest and most reliable deliveries in the industry.

Modul-System Service Centers

For many years, we have had an established and broad network of Service Centers across Europe. Each Service Center is an authorized retailer with the expertise required to meet your specific needs, as their personnel have a full understanding of our products, and how to install them into your vehicle. They can also supply you with wall and floor linings, electronics and accessories such as lighting, cargo restraints, and roof racks.
